# MILLION DOLLARS WORTH OF PRESENTS

Miss Lila Vanderbilt Sloane Will Wed Mr. William B. O. Field on Tuesday.

REPUBLIC SPECIAL.

Lencx, Mass., July 5.-At least \$1,000,000 orth of gifts have arrived here for Miss Lila Vanderbilt Sloane, youngest daughter of Mr. and Mrs. William D. Sloane, who on Tuesday becomes the bride of Mr. William Broadhurst Osgood Field, Rich and beautiful are the wedding pres-

ents. They are guarded by special private detectives in Elim Court, the magnificent home of the bride's father. There are ropes of pearls, pearl and diamond necklaces, jeweled tiarss, corsage ornaments, stomachers, diamond, pearl and ruby rings, jeweled fans, crescents, stars and brooches studged with gleaming diamends, silver candlesticks, gobiets of silver, loving cups, a pearl inkstand and scores of other beautiful things.

The wedding is to be the most fashionable event of the season. Trinity Church has been transformed for the occasion. It will

been transformed for the occasion. It will be well-nigh filled with flowers and white satin will cover the aisles.

A breakfast in Elim Court will follow the wedding, to which all the guests have been bidden.

Elim Court is one of the finest country sating around Lenux. Miss Sloane is a niece of George W. Vanderblit, and Mr. Fleid has been well known as a warm friend of Mr. Vanderblit for a number of years.

### COAL SHIPMENTS ENORMOUS.

Four Hundred Loaded Boats Arrive at Louisville.

Louisville, Ky., July 5.—One of the largest coal fleets ever brought to Louisville from Pittshurg has begun to arrive he.e. About 400 coal boats and an equal number of barges have aircady left Phitsburg with over 20,000,000 bushels of coal. As much as possible of this will be sent below the falls, but it is not likely all of it will be able to get over, as the stage of water is not likely to continue long enough.

The present coal-boat rise in the Ohlo is the Brst since April 25. Never before in fifty years has the Ohlo failed to have a coalboat rise eather in May or June at this port. In consequence of failure to ship coal below in June, the market is short at all points. The present shipment is the greatest in the history of Ohio River navigation.

SCIENTIFIC FEEDING And Exercise Solves the Problem.

Dr. H. L. Warner, in a recent issue of the New York World, says:

"Only a small percentage of the American people have perfect digestion and assimilation of food and the elimination of the waste matters of the body. In the matter of food and exercise the whole problem of health is contained. By making these right we can create perfect health.

"Digestive disturbances are due either to improper food or too much or too little proper food. With proper food taken in reasonable amounts, the imperfect actions of the various processes are corrected.

"This is not a fad but a fact established by the researches of pathologists and bacteriologists. The action of foods on the digestive and assimilative organs is known exactly. The result to the blood, and through it to the whole system, is certain and definite."

The most highly nutritive food now man-

through it to the whole system, is certain and definite."

The most highly nutritive food now manufactured is Grape-Nuts. It is made from certain parts of the grain and put through a mechanical process whereby the starches are changed to grape sugar and the phosphates of the certain retained, and chus supply the necessary nourishment and vitality to the body, brain and nerve centers. In its predigested form Grape-Nuts does not overtax the stomach, but renders sufficient assistance to the digestive organs to permit of the easy assimilation of other food.

Thoroughly cooked at the factory by food.

Thoroughly cooked at the factory by food experis brings Grape-Nuts from the grocer to you ready to serve with the addition of cream, and its crisp taste with the addition of cream, and its crisp taste with the addition of cream, and its crisp taste with the addition of cream, and its crisp taste with the delicate sweet of the grape sugar makes it pleasing to the palate of the most critical epicure.

These are scientific facts which can be proven by any one and a trial of ten days or two weeks will show what you can do on scientific feeding.

The recipe book in the package shows many delightful ways of serving the food.
